PROFESSIONAL SUMMARY

Motivated Computer Science and Design graduate with hands-on experience in Python programming, data analysis, SQL/MySQL, and web technologies. Experienced in developing an AI/ML-based project for price prediction and yield optimization using Python and machine learning techniques. Strong problem-solving and debugging skills with a passion for learning new technologies and contributing to real-world software projects

SKILLS

Programming: Python
Frontend: HTML, CSS, React
Backend: Flask, Django
Database: SQL, MySQL
Core: OOPS, DBMS, SDLC

PROJECTS

AI-ML Driven Forecasting Models for Price Prediction and Yield Optimization of Agri-Horticulture Commodities Nov 2025 – Mar 2026

Tech: Python, Pandas, NumPy, Scikit-learn, XGBoost, ARIMA, Matplotlib, Seaborn, MySQL **Live**

- Developed a Python-based **AI/ML forecasting application** for agricultural commodity price prediction and yield optimization using **Scikit-learn, XGBoost, and ARIMA**.
- Performed **data preprocessing, feature engineering, and forecasting analysis** using Pandas and NumPy to identify price and yield trends.
- Integrated **SQL/MySQL database functionality** and contributed to UI development using HTML, CSS, and React.
- Performed testing and debugging to improve application reliability and provide **data-driven insights** for crop planning and market analysis.

EXPERIENCE

Python Intern *skillDrize-3 months*

- Gained hands-on experience in **Python programming, OOP concepts, problem-solving, and debugging** through practical coding exercises and project-based tasks.
- Developed and tested Python programs by applying programming fundamentals, logical thinking, and efficient problem-solving techniques.
- Improved code quality by identifying and resolving errors during development and testing.

Data Analytics Intern **Eduskills – 10 Weeks**

- Gained practical experience in **data analysis, data handling, data interpretation, and analytical problem-solving** through a virtual internship.
- Worked with datasets to perform **data cleaning, basic analysis, and interpretation** to identify meaningful patterns and insights.
- Applied analytical thinking to convert raw data into useful insights for data-driven decision-making.

EDUCATION

Santhiram Engineering College, Nandyala, India <i>Bachelor's Degree in Computer Science and Design</i>	2022 – 2026 CGPA: 85%
Rao's Junior College, Nandyala, India <i>Intermediate – MPC</i>	2020 – 2022 CGPA: 87%
Little Angles English Medium High School, Velgode, India SSC	2019 – 2020 CGPA: 97%

ACHIEVEMENTS

- Secured **1st Prize** in the Smart India Internal Hackathon conducted at Santhiram Engineering College.
- Secured **2nd Prize** in the National Level Technical Symposium EMINENCE-SIGMA-2K25 conducted at Santhiram Engineering College, Nandyala.
